Professor
Dr. M. H. Faruquee

Professor Dr. M. H. Faruquee, **MBBS (Rajshahi Medical College, 1986)** and **MPH in Occupational & Environmental Health (NIPSOM, 1997),** is Professor and **Departmental Head DOEH, Bangladesh University of Health Sciences (BUHS)** . He has **24 years of research** experience, over **16 years of teaching (14 at university level),** and 25 years in administration. His research spans occupational and environmental health, nutrition, disability services, and community development. Dr. Faruquee has contributed to books such as Health Impact Assessment of Air Pollution and Hepatitis B Virus Infection Among Garment Workers, and has edited Arsenic, Water Contamination and Health Hazards. He developed numerous training modules on health and environment and worked as a consultant with **WHO, UNICEF, UNDP, ADB, World Bank, DANIDA, DFID, JICA, WaterAid, World Vision, and GIZ.** He is Life Member of BMA, Bangladesh Private Medical Practitioners Association, Public Health Association, and BAPA, and serves as General Secretary of Doctors for Health and Environment. He was **Assistant Executive Editor of BMA Journal.**

Message
from the Chief Advisor

On behalf of the **RURAL EMPOWER Professional Skills Development & Research Institute (PSDRI),** I am honored to express our vision and commitment to advancing skill-based education and professional excellence across Bangladesh and beyond. At PSDRI, we believe that empowering people through practical learning and internationally recognized standards creates lasting impact — not only for individuals but also for communities and industries. Our training and certification programs are designed to bridge the gap between education and employability, fostering a skilled, safety-conscious, and future-ready workforce. Through strategic collaborations with national and international partners, PSDRI strives to ensure that our programs meet global benchmarks while addressing local development needs. Together, we aim to build a more sustainable, competent, and empowered society.

Professor **Dr. M. H. Faruquee**
Chief Advisor
RURAL EMPOWER Professional Skills
Development & Research Institute (PSDRI)

Atikuz Zamman Chowdhury

Mr. Chowdhury brings over 16 years of extensive international experience in occupational health, safety, and environment (HSE) management, project leadership, and capacity development. His career spans a wide range of sectors, including **Former HSE Manager at TBEA Co., Ltd., (Under DPDC, Ministry of Power, Energy & Mineral Resources, Bangladesh), Former HSE Manager at Aviation Dhaka Consortium. (Under Terminal 3 Expansion PJT, HSIA,CAAB), Former Deputy Project HSE Manager (CP 03&04, MRT Line 6, DMTCL), Former Project HSE Manager DWASA- Well Field Construction Project (Water Treatment Plant), Former Lead HSE Oil & Gas operations (Plexal – Australia; Spie Oil & Gas – France; under Chevron – USA),** Electrical & Instrumentation (E&I) construction, Shipyard projects, and Offshore operations (Singapore).

He has successfully delivered **32 major projects across multinational environments in the USA, UK, Australia, Singapore, and Thailand,** consistently ensuring process, production, and project excellence. Academically, Atikuz holds **MPH in Occupational Health & Safety from Bangladesh University of Health Sciences (BUHS).** His professional credentials include a **Diploma in Workplace Safety & Health (UK), NEBOSH IGC, ISO 45001:2018 (OHSMS), ISO 14001:2015 (EMS), and the Professional Degree in Occupational Safety & Health from OSHA (USA).** He is also **IOSH certified and OSHA Certified Master Trainer,** enabling him to deliver globally recognized training programs with measurable impact.

Atikuz is a trusted partner for organizations seeking to elevate safety culture, meet international standards, and achieve operational sustainability. At PSD&RI, he is dedicated to empowering industries through world-class training, tailored consultancy, and strategic capacity-building initiatives. His vision is to create safer, more productive workplaces by blending global best practices with innovative solutions that meet each client's unique needs

What We Stand For

Technical Skill Development

Professional Training & Certification

OHSE Compliance Management

Project Compliance Consultancy

Rural Youth Development (Rural Rise)

Strategic Support for Organizational Growth

Global Workforce Mobility

Language Learning Hub

Rural Empower PSDRI Core Values

Excellence
Commitment to delivering top-quality professional services & Rural Youth Development.

Sustainability
Promoting eco-friendly practices and sustainable growth.

Integrity
Upholding transparency, honesty, and ethics in all endeavors.

Collaboration
Building strong partnerships to achieve mutual success.

Innovation
Encouraging creativity and adopting cutting-edge technologies.

Safety
Prioritizing health, safety and well-being in all training and operational aspects.

About PSDRI

Rural Empower PSDRI Ltd.

The Professional Skill Development and Research Institute (PSDRI) is dedicated to bridging the skill gap by delivering high-quality professional training programs across diverse industries. Our mission is to enhance workforce competency,ensuring that trainees gain practical knowledge and industry-recognized certifications to meet global standards.

ZERO UNEMPLOYMENT – A Dynamic Force in Skill Development PSDRI is driven by the vision of achieving zero unemployment through the empowerment of rural youth and the creation of a skilled professional workforce. We strive to close the gap between education and employability by offering comprehensive skill development programs, vocational training, and industry-specific certifications. By focusing on rural communities, PSDRI empowers individuals with essential technical, professional, and entrepreneurial competencies, enabling them to enhance their employability and contribute meaningfully to economic and social development. Through strategic collaboration with industries, educational institutions, and government agencies, we aim to establish a sustainable framework for skill development, ensuring long-term career growth and socio-economic progress.

Beyond training, PSDRI extends its expertise in Project Compliance Consultancy, Third-Party Inspection, OHSE (Occupational Health, Safety & Environment) Management, and Strategic Organizational Development. These services help organizations strengthen compliance, enhance performance, and achieve operational excellence.What truly sets PSDRI apart is its unwavering commitment to quality, integrity, and measurable outcomes. Every PSDRI program and service is founded on research, compliance, and hands-on learning, ensuring that every participant and partner not only meets but exceeds industry expectations.PSDRI is more than an organization—it is a mission.A mission to drive sustainable development, achieve zero unemployment, and promote education, empowerment, and excellence at every level of society.

Key Services

1. Technical Skill Development: Specialized short- and long-term courses designed to equip individuals with industry-relevant technical skills. Programs include civil, mechanical engineering, mep, E&I systems, IT, and more.

2. Professional Training & Certification: Offering globally recognized certifications such as ISO, OSHA, and Lean Six Sigma to enhance career prospects.

3. Occupational Health, Safety, and Environment (OHSE) Compliance Management: Implementing international OHSE standards to promote workplace safety and environmental sustainability.

4. Project Compliance Consultancy: Providing consultancy services for project audits, regulatory compliance, and risk management to ensure operational efficiency along with comprehensive Supply Chain Management services.

5. Rural Youth Development (Rural Rise): Initiatives aimed at empowering rural youth through skill development, entrepreneurship training, and employment opportunities.

6. Strategic Support for Organizational Growth: Assisting businesses in achieving key workforce and operational milestones through customized training solutions.

7. Global Workforce Mobility: Facilitating skilled worker migration to meet international labor demands, ensuring compliance with global standards.

8. Language Learning Hub: Offering comprehensive language training programs to enhance global employability and cross-cultural communication skills.

9. Third-Party Inspection Certification: Providing independent third-party inspection certification services for all kinds of tools, equipment, logistics, processes, and plants to ensure compliance with international safety, quality, and operational standards.

Our Vision & Mission

Vision Statement

To achieve zero unemployment by creating a skilled and future-ready workforce, especially from rural regions.

Mission Statement

Deliver practical training, knowledge, and consultancy aligned with industry standards to enhance employability and productivity.

We aim to bridge the gap between education and employability by providing comprehensive skill development programs, vocational training, and industry-specific certifications.

By focusing on rural areas, we seek to empower young individuals with the necessary technical and professional competencies to enhance their employability and contribute to economic growth.

Through collaboration with industries, educational institutions, and government agencies, we aspire to establish a sustainable framework for skill development, ensuring long-term career opportunities and socio-economic advancement

Accreditation and CPD

PSDRI has been approved and certified to provide training services to prospective learners in a variety of fields, including Construction, Industries, RMG, oil and gas technical training, health and safety, asset integrity management, ISO, and a variety of administrative skills.

Why Choose Us?

- PSDRI operates a complete physical training facility with all structural and academic requirements that meet international standards.

- PSDRI is the sole local institute partnered with **Bangladesh University of Health Sciences (BUHS)** to provide jointly certified training programs that ensure academic validation and global credibility.

- RE PSDRI has engaged highly qualified professors and international experts, ensuring world-class delivery.

- In-Depth comprehensive explanation of all sections.

- Adaptable to your course schedule.

- Accessible from anywhere, at any time, on any device of your choice.

- Continuous assessment with section-wise practice tests.

- The study materials, including visual learning materials and group discussions, are presented in a clear and easily understandable manner.

- Ability to learn at your own convenience with access to live recordings.

- Incorporate case studies from real-world situations.

- Exposure to real-life technical examples through expert certified trainers.

- Student's online chat group enables them to clear their doubts after the training.

- Trainees are eligible to earn Continuing Professional Development (CPD) credits.

- Affordable training packages with seasonal attractive offers.

Training Categories

From our Certified Technical training to business related courses, our training categories let you quickly select your chosen course and ensure you remain at the forefront of developments throughout various industries.

Our training program is divided into the following categories

1. Health, Safety & Environment (HSE) Training
2. OSHA Training
3. ISO Training
4. IOSH Training
5. Food Safety Training
6. Professional Training & Certification Programs
7. OHSE Compliance Management Programs
8. Environment Compliance Management Core Program
9. Basic Security Management Training
10. Language and Cultural Studies
11. PSDRI Internal Technical Skill Development

Health, Safety & Environment (HSE) Training

1. Accident & Incident Management

1. Incident Investigation and Root Cause Analysis
2. Risk, Crisis & Disaster Management
3. Crisis Management for Hazardous Environments
4. Emergency Action Planning and Preparedness
5. Earthquake Safety and Disaster Management
6. Workplace Accident Prevention Strategies
7. Incident Reporting & Near-Miss Investigation

2. Environmental Management

8. Sustainable Development Goals (SDG) Training
9. Environmental Safety & Waste Management
10. Introduction to Climate Change and Global Warming
11. Waste Management and Recycling Strategies
12. Control Hazard & Operability Analysis
13. Water Conservation and Pollution Control
14. Carbon Footprint Reduction and Green Energy Practices
15. Hazard Communication & SDS Training (HAZCOM)

3. Fire Safety

16. Fire Prevention and Fire Safety Plans
17. Basic Fire Safety Awareness Training
18. Fire Risk Assessment Training
19. Rescue and Fire Fighting Training
20. Fire Watchman Training
21. Hot Work Safety Awareness
22. Fire Extinguisher Use & Emergency Evacuation

4. Occupational Health & First Aid

23. Basic Life Support (BLS) Training
24. Ergonomics Awareness and Workplace Assessment
25. First Aid, CPR & AED Training
26. Heat Stress Prevention and Management
27. Noise and Vibration Safety Awareness
28. Respiratory Protection

5. Managing Safe Work Practice

29. Managing Health and Safety in the Workplace
30. Confined Space Entry and Rescue Training
31. Scaffolding Safety Awareness Training
32. Fall Prevention & Working at Heights Training
33. Excavation & Trenching Safety Training
34. Aerial Lift / MEWP Safety
35. Heavy Equipment Safety and Operations

6. Industrial & Equipment Safety

36. Banksman/Flagman Training
37. Crane, Hoist, and Rigging Safety
38. Traffic Safety Management
39. Defensive Driving Training
40. Isolation of Hazardous Energy (LOTO)
41. Rigging and Slinging Training
42. Foreign Object Debris (FOD) Management
43. Power Tools and Equipment Safety
44. Basic Electrical Safety Training
45. Personal Protective Equipment (PPE)

7. HSE Management & Systems

46. Workplace Safety and Health Certification
47. Construction Safety Training
48. Introduction to Environmental Health and Safety (EHS)
49. Soft Skills & Safety Culture Training
50. Safety Leadership & Supervisory Skills

8. Permit to Work Training

51. Introduction to Risk Assessment in Construction
52. Permit to Work (Issuing/Area Authority)
53. Permit to Work (Work Permit Receiver-WPR)
54. Hot Work Permit Training
55. Confined Space Permit Training

9. Performance & Safety Improvement

56. Enhancing HSSE Safety Performance & Effectiveness
57. Job Hazard Analysis (JHA) Training (Construction Specific)
58. Toolbox Talk Facilitation & Safety Communication
59. Safety Auditing & Inspection Skills

10. Security Management & Site Protection

60. Basic Security Guard Training
61. General Security Practices
62. Security Operations Management
63. Security Roles & Responsibilities for Site Managers
64. Theft & Vandalism Prevention in Construction
65. Threat & Risk Assessment in Construction Projects
66. Incident Reporting & Investigation Procedures
67. Emergency Response & Crisis Management for Construction Sites
68. Site Access Control & Visitor Management

11. Specialized Technical & Analytical Studies

69. Qualified Gas Tester (QGT) Training
70. Fire & Gas Mapping (cross-linked with Environmental Safety)
71. Machine Guarding and Mechanical Safety
72. Respiratory Protection (29 CFR 1910.134)
73. Occupational Noise Exposure and Hearing Conservation
74. Industrial Hygiene Principles
75. Logistics and Supply Chain Management
76. Warehouse Safety Management
77. Manual Handling Training

OSHA Training

1. OSHA 30-Hour Construction Industry course
2. OSHA 30 Hours Construction Industry Virtual/Online
3. OSHA 30 Hours Construction Industry eLearning
4. IASP OSHA 30 Hours General Industry eLearning
5. IASP OSHA 30 Hours General Industry Online/Virtual
6. IASP OSHA 30 Hours General Industry Course

IOSH Training

This certification from the Institution of Occupational Safety and Health (IOSH) allows managers and safety leaders to successfully manage health and safety in their workplace. At PSDRI, our courses include an excellent balance of new understanding and hands-on experience which are delivered by highly qualified instructors, are suitable for individuals working in a wide range of sectors and occupations.

1. Managing Safely
3. Managing Safely Refresher
4. Leading Safely
5. Working Safely

● IOSH Level 3 Certificate in Occupational Safety and Health Principles and Practice

● IOSH Level 6 Diploma in Occupational Safety and Health Leadership and Management

ISO Training

At PSDRI, we believe that for an organization to adapt to quality management system processes, it should have an individual with the greatest capacity for implementing global marketing standards, enabling the company to grow without compromising employee and customer safety. We provide extensive trainings that not only give participants in-depth information but also an understanding of ISO standards, equipping them with the knowledge and skills necessary to achieve sustainable quality. PSDRI ensures allocating your training budget to what matters, learning – will allow you to stretch your knowledge even further.

1. ISO 9001:2015 – Quality Management System (QMS)

2. ISO 14001:2015 – Environmental Management System (EMS)

3. ISO 45001:2018 – Occupational Health & Safety Management System (OHSMS)

4. ISO 22000:2018 – Food Safety Management System (FSMS)

5. ISO/IEC 27001:2022 – Information Security Management System (ISMS)

6. ISO 50001 – Energy Management System

7. ISO 55001 – Asset Management Systems

8. ISO 17025 - Testing and Calibration Laboratories

9. ISO 22301 - Business Continuity Management Systems.

Food Safety Training

Our food safety training is designed for employees in the hospitality industry, catering, restaurants, and manufacturing industries to ensure that they follow all local authority and food safety regulations. Food safety refers to how we handle, store, and prepare food to avoid infection and ensure that our food contains enough nutrients for us to eat a healthy diet.

1. Basic Food Hygiene Training (level 2)
2. Intermediate Food Hygiene Training (Level 3)
3. Advance Food Hygiene Training (Level 4)

4. Awareness Training (Level 2)
5. Intermediate Training (Level 3)
6. Advance Training (Level 4)

Professional Training & Certification Programs

1. ISO Lead Auditor Courses (9001, 14001, 45001, etc.)
2. Lead Auditor Courses (ISO Standard-Based)
3. ISO 21001 (EOMS)
4. CMI Professional Consulting Qualifications
5. CMI Chartered Manager (CMgr)
6. Certified Quality Auditor (CQA)
7. Quality Management System (QMS)
8. Energy & Utility Sector Programs
9. Risk & Crisis Management Certifications
10. Lean Six Sigma

OHSE Compliance Management Programs

OHSE (Occupational Health, Safety, and Environment) Compliance Management Programs aresystematic processes, often supported by software, that organizations use to identify, control, and mitigate hazards and risks to ensure adherence to health, safety, and environmental laws, regulations, and standards

1. OSHA 30-Hour and 45-Hour Safety Training
2. OSHA Process Safety Management
3. OSHA Warehousing and Logistics Safety
4. Fire Safety and Emergency Response Training
5. Environmental Management and Sustainability Courses
6. IOSH Managing Safely
7. IOSH Level 3 Certificate in Occupational Safety and Health Principles and Practice
8. IOSH Level 6 Diploma in Occupational Safety and Health Leadership and Management
9. ProQual – Level 3 NVQ Certificate in Occupational Health and Safety
10. ProQual – Level 6 NVQ Diploma in Occupational Health and Safety
11. ProQual – Level 7 NVQ Diploma in Safety

Environment Compliance Management Core Program

Environmental Compliance Management - Need and Challenges Minimizing the environmental footprint has become essential for businesses, and this is enabled through comprehensive and robust Environmental Compliance Management (ECM), which ensures that organizations adhere to environmental regulations and standards

1. EMAS Principles of Environmental Sustainability and Compliance
2. EMAS Legal Compliance in Environmental Management
3. EMAS Risk Assessment and Environmental Impact Analysis
4. CDP Climate Change Fundamentals and Global Policies
5. ISO 14001:2015 – Environmental Management Systems (EMS) Lead Auditor
6. ISO 50001:2018 – Energy Management Systems (EnMS) Lead Auditor
7. ProQual – Level 3 Award in Environmental Management

Basic Security Management Training

Basic security guard training covers fundamental skills for safety, including patrolling, access control, observation, and emergency response like fire and first aid

1. General Security Practices
2. Security Operations Management
3. Security Roles & Responsibilities for Site Managers
4. Theft & Vandalism Prevention in Construction
5. Threat & Risk Assessment in Construction Projects
6. Incident Reporting & Investigation Procedures
7. Emergency Response & Crisis Management for Construction Sites
8. Site Access Control & Visitor Management

Language and Cultural Studies

Language and Cultural Studies is an academic field that examines the deep connection between language and culture, focusing on how each influences the other and serves as a means for creating and communicating meaning within a community

1. Business English and Communication
2. French, German, Japanese, Korean, Chinese, Finnish, Italian, and 20+ Language Programs
3. Cross-Cultural Communication Workshops

PSDRI Internal Technical Skill Development

PSDRI is committed to developing internal technical competencies through structured training and certification programs. These programs are designed to enhance the technical skills of individuals, preparing them for industry-specific roles. Key areas include

1. **Carpentry Work**: Fundamentals of woodworking, safety practices, and tool handling
2. **Basic Electrical Work**: Introduction to electrical circuits, wiring techniques, and safety protocols
3. **Plumbing Work**: Basics of plumbing systems, installation, and maintenance.
4. **Masonry Work**: Techniques in bricklaying, concrete work, and structural foundations
5. **Arc Welding (SMAW)**: Shielded Metal Arc Welding techniques and safety measures
6. **MIG/TIG Welding (GMAW/GTAW)**: Advanced welding methods for industrial applications
7. **Refrigeration Cycle and System Operation**: Basics of HVAC systems and refrigeration technology
8. **HVAC System Installation**: Comprehensive training on heating, ventilation, and air conditioning systems
9. **Roof Installation and Repair**: Practical skills in roofing materials, installation techniques, and repair processes
10. **Concrete Work**: Techniques in mixing, pouring, and finishing concrete
11. **Steel Reinforcement and Fabrication**: Skills in reinforcing steel structures and fabrication processes
12. **Landscaping and Groundskeeping**: Principles of landscape design, maintenance, and sustainability
13. **Painting and Coatings**: Surface preparation, application techniques, and finishing processes
14. **Surveying**: Fundamentals of land surveying, equipment handling, and data interpretation
15. **Fire Fighting Installation Work**: Installation and maintenance of fire safety systems
16. **Pipe Installation Work**: Techniques for installing various piping systems
17. **Automobile Work**: Basics of vehicle maintenance, diagnostics, and repair
18. **Driving Learner Equipment Operator**: Training on operating heavy machinery and equipment
19. **Scaffolding Work**: Safe practices in erecting and dismantling scaffolding structures

Third-Party Inspection Services / Certification

Third-party inspection (TPI) services are independent evaluations conducted by PSDRI to ensure compliance with industry standards, regulations, and client specifications. These services help maintain quality, safety, and reliability in various industries

1. Industrial & Engineering Inspections

- Welding Inspection
- Pressure Vessel & Boiler Inspection
- Piping & Pipeline Inspection
- Non-Destructive Testing (NDT) (e.g., UT, RT, MT, PT)
- Structural Steel Inspection
- Electrical & Instrumentation Inspection
- Factory Acceptance Testing (FAT)
- Site Acceptance Testing (SAT)
- Coating & Painting Inspection
- Equipment and Machinery Inspection

2. Construction & Civil Engineering Inspections

- Foundation & Concrete Testing
- Building Code Compliance Inspection
- Structural Integrity Inspection
- Road & Bridge Inspection
- Fire Safety Inspection

3. Oil & Gas / Energy Sector Inspections

- Offshore & Onshore Rig Inspection
- Pipeline Integrity Inspection
- Refinery & Petrochemical Plant Inspection
- Lifting Equipment & Crane Inspection
- Hazardous Area Classification Inspection

4. Electrical & Electronics Inspections

- Electrical Safety Inspection
- Transformer & Switchgear Testing
- Cable and Wire Inspection
- EMC & EMI Testing

5. Environmental & Safety Inspections

- Occupational Health & Safety Compliance
- Environmental Impact Assessment (EIA)
- Air & Water Quality Testing
- Noise Monitoring
- Hazardous Material (HAZMAT) Inspection

6. Manufacturing & Product Certification

- ISO 9001: Quality Management System
- ISO 14001: Environmental Management System
- ISO 45001: Occupational Health & Safety
- CE Marking (European Compliance)
- UL Certification (Electrical Safety)
- ROHS & REACH Compliance (Chemical Restrictions)

7. Food & Pharmaceutical Inspections

- HACCP (Hazard Analysis and Critical Control Points)
- GMP (Good Manufacturing Practices)
- FDA Compliance Inspection
- ISO 22000 (Food Safety)

Construction Safety & Site Management

1. Construction Site Safety Training
2. Scaffolding Safety Awareness Course
3. Confined Space Entry and Rescue Training
4. Working at Heights and Fall Protection
5. Introduction to Risk Assessment in Construction
6. Basic Electrical Safety Training
7. Logistics and Supply Chain Management
8. Crane, Hoist, and Rigging Safety
9. Traffic Safety Management
10. Hazard Communication (HAZCOM) Training
11. Lockout/Tagout (LOTO) Procedures
12. Machine Guarding and Mechanical Safety
13. Industrial Hygiene and Occupational Health
14. Personal Protective Equipment (PPE) Awareness
15. Warehouse Safety Management
16. Emergency Action Planning and Preparedness
17. Fire Prevention and Fire Safety Plans
18. Emergency Response Planning and Crisis Management
19. Incident Command System (ICS) Training
20. Ergonomics in the Workplace

Exam Preparation Training

We offer comprehensive exam preparatory training sessions that enable participants to gain the knowledge they need to pass a specific Examination Certification. Throughout the training and even after the courses are completed, each applicant will receive real sample exam questions and answers and continual assessment.

1. BCSP Associate Safety Professional (ASP) / Certified Safety Professional (CSP)
2. NFPA Certified Fire Protection Specialist (CFPS)
3. Exida Certified Functional Safety Professional/Expert (CFSP/CFSE)
4. ABIH Certified Industrial Hygienist (CIH)
5. SMRP Certified Maintenance and Reliability Professional (CMRP)
6. SMRP Certified Asset Management Assessor (CAMA)
7. SMRP Certified Maintenance & Reliability Technician (CMRT)
8. PMI Project Management Professional (PMP)
9. American Petroleum Institute (API) Training

   - API 510   - API 579   - API 581   - API RP 2SIM
   - API 571   - API 580   - API 653

10. Six Sigma Green Belt
11. ASNT NDT Level 1,2 and 3
12. Safety Trained Supervisor Training (STSC
13. Construction Health and Safety Technician Training (CHST)
14. Certified Instructional Trainer Training (CIT
15. Occupational Hygiene and Safety Technician Training (OHST
16. Safety Management Specialist Training (SMS)
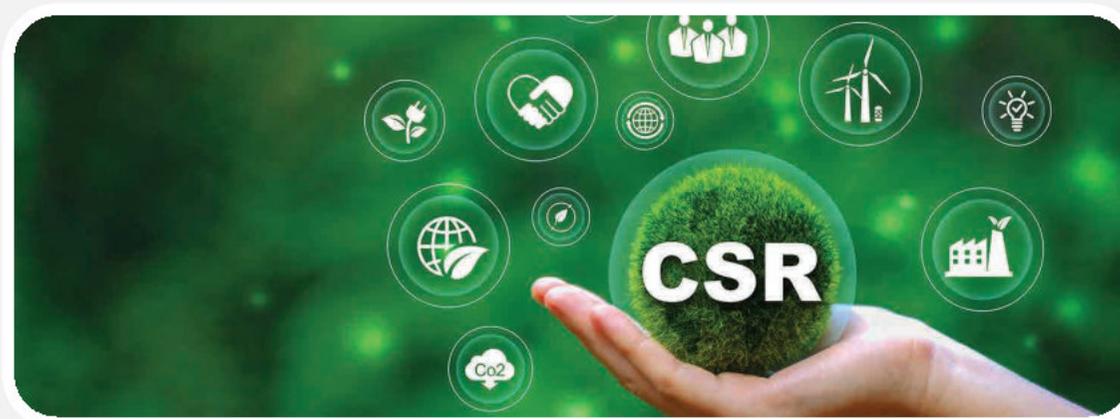

Strategic Support for Organizational Growth

PSDRI provides strategic support to organizations aiming to enhance their operational performance and achieve sustainable growth. Our comprehensive services include

1. **Business Strategy Development**: Crafting strategic plans tailored to organizational goals.
2. **Workforce Planning**: Identifying skill gaps and designing effective workforce development programs
3. **Change Management**: Assisting organizations in managing transitions and implementing new strategies
4. **Performance Improvement**: Analyzing processes to identify inefficiencies and recommend improvements
5. **Leadership Development**: Training programs for developing strong leadership and management capabilities.
6. **Innovation Consulting**: Encouraging a culture of innovation to drive business growth

Corporate Social Responsibility (CSR)

PSDRI is committed to CSR initiatives, including

1. **Community Development Programs**: Supporting local communities through education and skill development
2. **Environmental Sustainability Projects**: Promoting eco-friendly practices within training programs and operations
3. **Youth Empowerment Initiatives**: Scholarships and mentorship programs for underprivileged youth

Digital Marketing and Professional Courses

PSDRI offers comprehensive digital marketing and professional courses designed to equip individuals with modern skills required in today's competitive landscape

1. **Content Writing:** Creative, technical, and professional content development
2. **Digital Marketing Fundamentals:** Basics of SEO, SEM, and online marketing strategies
3. **Social Media Marketing:** Leveraging platforms like Facebook, LinkedIn, and Instagram for brand growth
4. **Email Marketing:** Techniques for effective email campaigns and automation tools
5. **Search Engine Optimization (SEO):** Advanced SEO strategies for better search engine visibility
6. **Web Development:** Front-end and back-end development skills
7. **Affiliate Marketing:** Monetization strategies through affiliate networks
8. **Marketing Analytics:** Data-driven decision-making and marketing performance analysis
9. **Cyber security and Data Protection:** Ensuring online security and data privacy
10. **Business Accounting & Taxation:** Fundamentals of financial management, accounting principles, and tax laws
11. **Data Analytics and Business Intelligence:** Techniques for data interpretation and strategic business decisions

Affiliations and Partnerships

PSDRI collaborates with national and international organizations to ensure the highest standards of training andcertification

1. **Government Bodies**: Ministry of Commerce, Joint Stock Companies & FirmsBangladeshMinistry of Labour and Employment, National Skills Development Authority, Bangladesh Technical Education Board

2. **International Accreditation Bodies**: IOSH, OSHA, ISO

3. **Corporate Partners**: Industry leaders and multinational corporations for internship and employment opportunities

Success Stories and Testimonials

We take pride in the success of our trainees who have excelled in their careers globally. Testimonials from our alumni and corporate partners highlight the transformative impact of our programs
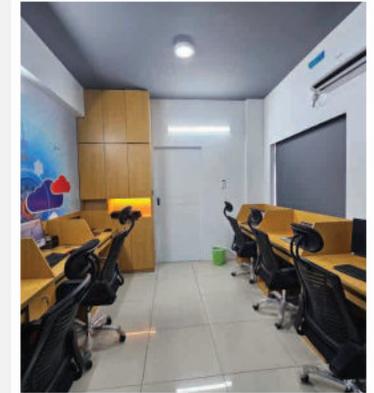

Future Roadmap

1. **Expansion of Training Centers**: Establishing new centers across rural and urban areas

2. **Global Outreach**: Forming partnerships with international institutions for student exchange and collaborative programs

3. **E-Learning Platform**: Launching an online learning portal to make education accessible globally

4. **Advanced Research Labs**: Setting up state-of-the-art labs for technical training and innovation
